**Letter of Notification**

**REF:**  
Courthouse Road/St Marks Road/Crescent Trial Mini-Roundabout

*Dear Resident,*

In response to requests for junction improvements and safer pedestrian crossing facilities at the above junction, proposals have been developed for a trial mini-roundabout with two additional pedestrian crossings.

A drawing showing the proposed trial scheme is included on the reverse side of this letter.

A temporary traffic light controlled pedestrian crossing will be located on the northern arm of Courthouse Road and another on St Marks Crescent. Each arm of the junction will also have speed cushions installed to assist in slowing down the traffic by achieving appropriate approach speeds for vehicles.

Works to implement the trial scheme are programmed for the week commencing 28th January. Temporary traffic lights will be in use at the junction whilst work is carried out to implement the trial layout. Any changes to the programme will be displayed on scheme boards at the site.

The trial layout is planned to remain in place for an initial period of approximately four weeks, whilst the trial scheme is monitored. Designs are being prepared for a permanent mini-roundabout scheme, which is provisionally proposed to include raised Zebra crossings in place of both temporary traffic light-controlled crossings.

After considering the impacts of the trial scheme and any feedback received, a decision will be made, and communicated, on whether to extend the trial period, revert to the previous layout or implement a permanent scheme for the junction.

Should you have any comments on the trial scheme period please complete the online survey monkey before 28th February: [https://www.surveymonkey.co.uk/r/KN6C338-trial-mini-roundabout-Feedback](https://www.surveymonkey.co.uk/r/KN6C338-trial-mini-roundabout-Feedback).
