The Council has received a petition from local residents regarding the difficulty of crossing Stafferton Link in Maidenhead. The Council is proposing to install a Zebra crossing on the eastbound carriageway and a raised Zebra crossing on the westbound carriageway of Stafferton Link between the junctions of Forlease road and Bray Road, Maidenhead. The proposed measures will provide a positive response to the concerns of local residents and are aimed at encouraging people to walk to and from local schools, and to choose to walk for other journeys.

The effect of this order will be to implement a Zebra crossing and road hump in Stafferton Link, Maidenhead.

The Royal Borough of Windsor & Maidenhead propose to install the Zebra crossing and road hump in Stafferton Link, Maidenhead for the following reasons:

A. For avoiding danger to persons or other traffic using the road or any other road or for preventing the likelihood of any such danger arising.

B. For preserving or improving the amenities of the area through which the road runs.
